## TELLS OF FURTHER ATROCITIES BY TURKS

### American Professor's Letter Says Ottomans Are Bent on Exterminating Armenians.

NEW YORK, Oct. 12.—Further evidence of the atrocities inflicted by the Turks upon the Armenians was given out here tonight by the American committee on Armenian atrocities, in the form of a letter received from an American professor in one of the American colleges in Turkey.

"Everyone," the committee explains, "familiar with the temper and spirit of Turkey at the present time, will readily understand why his name and more particulars as to places cannot be given to the public now."

The writer says that during the last week in April the professor of Armenian at his college was arrested and imprisoned with 25 other prominent Armenians. He was later taken to Sivas, where he died. On June 26 many of the prominent men of the city, including two professors, were taken to the soldiers' barracks until the total numbered 1,215.

"At a place three hours distant from the city on a lonely road, leading to Zileh, all these men were brutally slain by the gendarmes and by men called Chettehs. Chettehs are murderers released from prison for the express purpose of preying on Armenians."

The writer says that the American consul was told that the Turkish government intended to exterminate Armenians. "He further said," the professor continues, "that when the Armenians were disposed of the Greeks would be similarly treated and after that the foreigners. A like statement was made by Enver Pasha, the minister of war to our ambassador, Mr. Morgenthau."
